

The Benefits of a Full Immersion Program at a Young Age:

- Young children learn languages more quickly
- Learning a second language early in life promotes more native-sounding pronunciation
- Promotes better overall grammar
- Your child develops a global attitude through intercultural awareness
- Exposure to a second language helps your child to be more creative and flexible
- Foreign languages can have a positive effect on memory and listening skills
- early experience helps children get to school with more advantageous self-regulation skills and can benefit brain function even until old age

We use authentic Italian teaching materials

Children celebrate Italian Carnevale

Testimonials:

"...Abigail comes home every day chatting away, using the new Italian words she learns. She loves to sing the vowel song in the bathtub...Thank you for starting such a great program."

"...you have made learning fun and practical."

"I tell everyone about you. We absolutely love it!"

"Brava Carolina!"

"Thank you for the wonderful year of Italian! What an impression this has made on Timoteo. His ears perk up anytime he hears something about Italia—his pronunciation is so beautiful—Thank you for all your work!"

"Carolina, the performance was wonderful and your hard work with the children shone through!"

La Piazza di Carolina Italian Immersion Preschool

About La Piazza di Carolina

La Piazza di Carolina's l'angolo dei bambini is a unique Italian-immersion preschool providing learning of the Italian language and appreciation for the Italian culture through an academically rich, age-appropriate preschool curriculum.

Learning our numbers in Italian.

We combine Italian structural methods with traditional American ways that engage children in activities that develop fundamental early childhood skills such as self-confidence, imagination, reasoning,

listening, creativity, socialization and motor coordination.

Our Mission:

Our mission is twofold; to provide a preschool education that more than prepares a child for higher learning, and provide an Italian language and cultural experience in a full-immersion environment that fosters a child's general development while expanding their command of Italian. Each child is encouraged to develop their whole potential through daily exposure to language arts, music, art, drama/theatre and Italian culture with pre-academic skills smoothly integrated into the children's play. Teachers are fluent and/or native speakers with experience in early childhood education.

In addition, we are proud to be sponsored by The National Italian American Foundation (NIAF) and the Italian American Committee on Education (IACE).

2014-2015
